

**LARGE-SCALE LANDSCAPES
DESIGNED BY A LANDSCAPE
ARCHITECT**

Fort Needham Memorial Park

Location	Halifax, NS
Landscape Architect	Fathom Studio
Project Team	Jason Glass-Lighting Design, Electec Engineering-Electrical, Point Engineering-Civil, Turfmasters-General Contractor
Client	Halifax Regional Municipality

Jury Comments

“The Fort Needham Memorial Park is recognized for its successful integration of a commemorative site with a highly active public space. The design succeeds at multiple scales, supports and enhances the use of the space by residents from the surrounding community, while drawing users into the details of the design through close attention to composition, materials and messaging. Fathom Studio transforms a space that was once challenging to access into an urban activity destination, while leveraging significant historical contexts.”
